## BAROLO

### **Dott. G.Cappellano – Serralunga d’Alba, Piemonte Italy**

*Augusto Cappellano is the fifth generation of the family to produce wine from vineyards in Serralunga d’Alba. His great-grandfather, Filippo, acquired substantial acreage there and, in 1870 established the azienda.*

*The four hectares of vineyards owned by the Cappellano family are principally in Serralunga d’Alba and are supplemented by a small parcel in the neighboring village of Novello.*

*The land is farmed according to organic principles, indigenous yeasts are relied upon, the use of sulfur is strictly limited, vinification is traditional (long fermentation, extended aging in large, old botte) and the wine is not filtered prior to bottling.*

## VALTELLINA

### **ARPEPE – Valtellina, Lombardia Italy**

*The Perego family has been tending vines on these sheer granite terraces in the mountainous Valtellina since 1860. The vines are so far north into the alps they are practically in Switzerland.*

*They work only with Nebbiolo, or Chiavennasca as it is called in these parts, growing the grapes up to 700 metres above sea level on sheer, south-facing, sunlit vines that dig straight into rock. The resulting fruit is intensely mineral.*

*Production is very much of the old-school and labour is intense, the hills making it very difficult to reach the fruit at all. The transparency of the grape, the singular landscape and the Perego's gentle hand in the cantina lend these wines a remarkable sense of place.*
